## COACHING TRAINING AND TRANSLATING SERVICES

### **Translating**

Are you using the right language for your business needs?

In translation we are known for our accuracy with technical and business documents, and we are valued for our respect of customer deadlines, no matter how short.

A good translation not only requires fluency in two languages, but also knowledge of specialized terminology – the “language” of a specific business. With the flexibility and quality of our carefully selected translator base, we are able to provide fast and accurate translations of technical and business documents on time.

Our express translation allows you to meet your short-term deadlines, and we have worked with customers on large documents and long-term projects to their complete satisfaction. Documents are proofread by a member of the office staff and we ensure complete confidentiality.

We can accommodate source documents/materials in almost any format.
